

## The patented ribbed plate from Hagemann Systems

Simple is often the hardest thing. Especially in a market characterized by functionality and low costs. Hagemann System has optimized its product, which has been established for years. The goal was to develop the existing advantages of the current ribbed plates and to realize new, meaningful ideas.

The new ribbed plate impresses with:

- + Improved functionality
- + Lower transport volume
- + Less storage space
- + Reduce the diversity of varieties

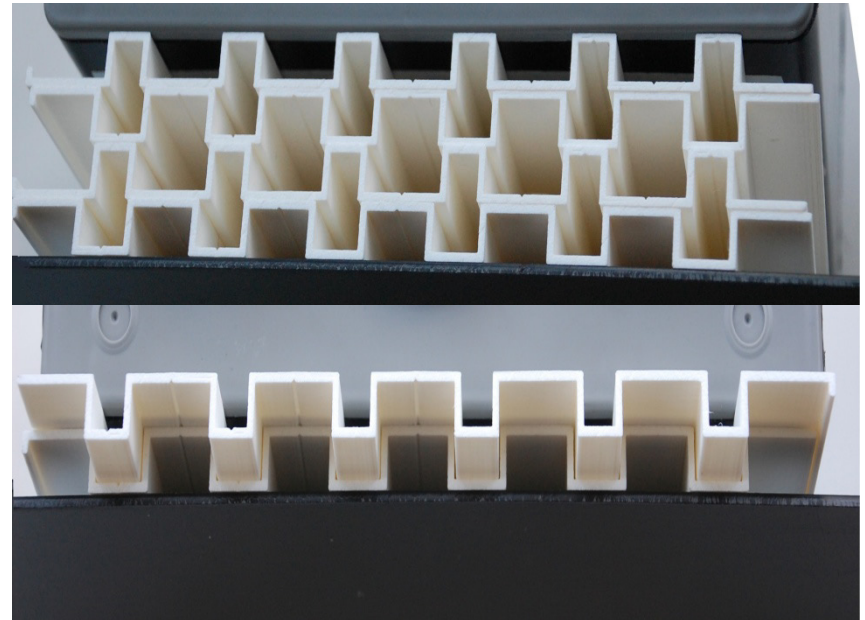

**Ergo: less costs**

## The patented ribbed plate from Hagemann Systems

### Functionality

- + Easy handling
- + Break lines
- + Beveled edges
- + Individual length cut
- + Different widths (198/396 mm)
- + Fast installation

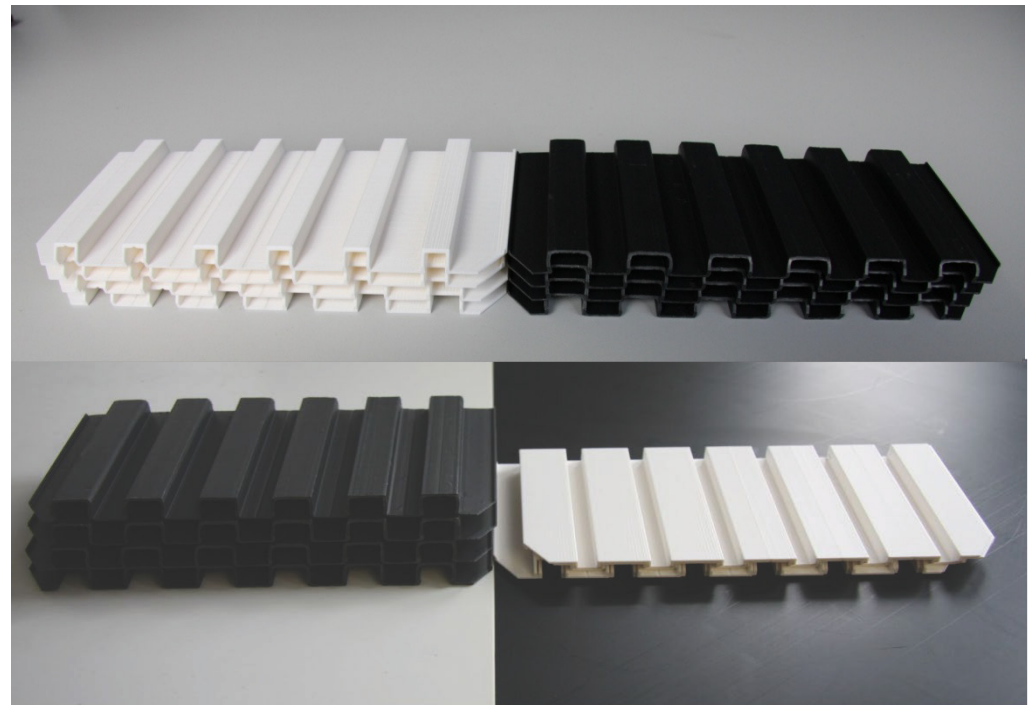

**Ergo: less costs**

## The patented ribbed plate from Hagemann Systems

### Transport volume

- + Less cargo space
- + No "air" transports
- + 25 - 30% freight cost savings
- + Environmentally friendly

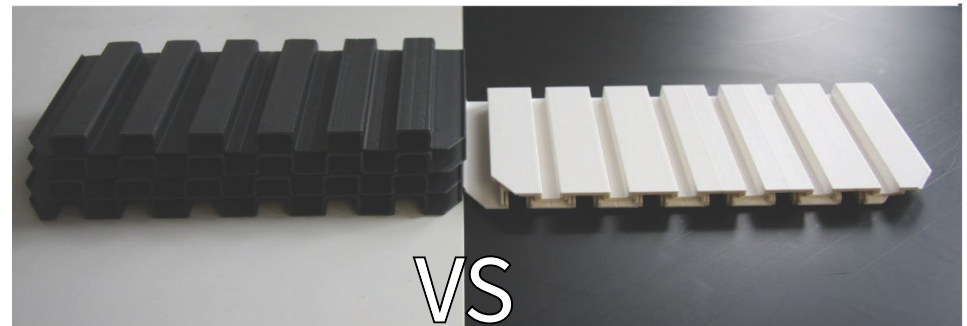

**Ergo: less costs**

## The patented ribbed plate from Hagemann Systems

### Storage place

- + More plates in the same room
- + Less space required
- + Less varieties
- + 5–10% follow-on cost reduction via less in-plant handling and storage place

### Ergo: less costs
